wie entsteht ökonomischer mehrwert im kapitalismus und wie sollte er umverteilt werden das waren die zentralen fragen die karl marx am Übergang zum industrie kapitalismus in das kapital auf radikale weise beantwortete viktor mayer schönberger und thomas ramge beantworten die gleichen fragen am Übergang zum globalen datenkapitalismus neu wir können mit daten den markt neu erfinden und wohlstand für alle schaffen dazu müssen big data automatisierung und künstliche intelligenz ihr potenzial voll entfalten können den effizienzgewinn dürfen nicht allein die großen datenmonopolisten einstreichen nur wenn dieser allen zugute kommt schaffen wir eine digitale soziale marktwirtschaft in der aber werden geld und banken eine untergeordnete rolle spielen

kids deserve a better digital future help them create it when it comes to raising children in a digital world every parent feels underprepared and overwhelmed we worry that our children will become addicted to online games be victims of cyberbullying or get lost down the rabbit hole of social media we warn them about all the things they shouldn't do online but we don't do nearly enough to teach them the skills of digital well being it's time to start a new conversation in digital for good edtech expert richard culatta argues that technology can be a powerful tool for learning solving humanity's toughest problems and bringing us closer together he offers a refreshingly positive framework for preparing kids to be successful in a digital world one that encourages them to use technology proactively and productively by outlining five qualities every young person should develop in order to become a thriving contributing digital citizen be balanced understand when and how much tech use is healthy stay informed discern between true and false information be inclusive treat others with respect and kindness online be engaged use tech to strengthen family relationships and community connections stay alert exercise caution and create safe digital spaces for others this practical guide will help parents and children discover the path to becoming effective digital citizens all while making our online world a better place

some have viewed the ascendance of the digital library as some kind of existential apocalypse nothing less than the beginning of the end for the traditional library but weiss recognizing the concept of the library as a big idea that has been implemented in many ways over thousands of years is not so gloomy in this thought provoking and unabashedly optimistic book he explores how massive digital libraries are already adapting to society's needs and looks ahead to the massive digital libraries of tomorrow covering the author's criteria for defining massive digital libraries a history of google books and the very large digital library with a refresher on the initial protests of the scholarly communication community practices of massive digital libraries and how traditional libraries are evolving to integrate their presence a comparison of the collection development approaches of google books and hathitrust library applications such as mdl for research in digital humanities catalog integration through the google book api culturenomics and the google ngram viewer case studies of library projects with google books with analysis of aspects such as legibility of scans metadata accuracy culture and diversity providing a solid grounding on the concept of massive digital libraries and their strengths and weaknesses as digital information tools this book will help librarians understand how they function and what we can expect in the future

deploying empirical studies spanning from early imperial china to the present day 17 scholars from across the globe explore the history of surveillance with special attention to the mechanisms of power that impel the concept of surveillance in society by delving into a broad range of historical periods and contexts the book sheds new light on surveillance as a societal phenomenon offering 10 in depth applied analyses that revolve around two main questions who are the central actors in the history of surveillance what kinds of phenomena have been deemed eligible for surveillance for example information flows political movements border crossing trade interacting with foreign states workplace relations gender relations and sexuality

educators have long struggled to teach students to be critical consumers of the information that they encounter this struggle is exacerbated by the amount of

information available thanks to the internet and mobile devices students must learn how to determine whether or not the information they are accessing is reputable fighting fake news focuses on applying critical thinking skills in digital environments while also helping students and teachers to avoid information overload according to a 2017 pew research report we are now living in a world where 67 of people report that they get their news from social media with the lessons and activities in this book students will be challenged to look at the media they encounter daily to learn to deepen and extend their media literacy and critical thinking skills now more than ever teachers need the instruction in fighting fake news to teach students how to locate evaluate synthesize and communicate information grades 4 6

postal intelligence connects and situates histories of the post and government intelligence alongside print technology and state power in the wider context of the early modern communications revolution in the sixteenth century postal services became central to domestic governance and foreign policy enterprises extended government reach and surveillance and offered new control over the public sphere rachel midura focuses on the tassis family members of which served as official postmasters to the dukes of milan the pope spanish kings and holy roman emperors using administrative records and family correspondence she follows the tassis family their agents and their rivals as their influence expanded from northern italy across europe postal intelligence shows how postmasters and postmistresses were key players in early modern diplomacy commerce and journalism whose ultimate success depended on both administrative ingenuity and strategic ambiguity

this is not a book about the history of computing or the history of information instead it is a meta historical book about the research and writing of these types of

history the formal presentation of historical research in the form of a publication often hides the process by which the topic was selected boundaries were drawn evidence was selected analytic approach was chosen and applied results were presented how this work fits into a larger body of scholarship the implicit goals and biases of the author and many other similar issues this process of learning about the various ways to carry out computer history or information history can be enriched by this collection of reflective essays by experienced scholars discussing the craft that they practice this is a book that concerns both computer history and information history the first scholarship in computer history by professionally trained scholars began to appear in the 1970s so we are approaching a half century of research and publication in this area the field has generated numerous pieces of exemplary scholarship from various perspectives such as intellectual history of individual technologies business histories of firms economic histories of market sectors externalist histories of funding and professionalization and so on however the field continues to evolve especially as computing and communication technologies have drawn together in the form of the internet and social media and with them a new set of scholars is participating drawn not only from the history of science and technology but also from the communication and media studies fields powerful theories approaches and frameworks are being increasingly drawn more widely from both the humanities and the social sciences to inform the practice of computer history the scholars in this volume look at what s happened what s happening now and where historical scholarship in these disciplines is headed

masterarbeit aus dem jahr 2018 im fachbereich bwl informationswissenschaften informationsmanagement note 1 7 technische universität carolo wilhelmina zu braunschweig institut für wirtschaftsinformatik sprache deutsch abstract diese arbeit beschäftigt sich mit der frage inwieweit sich game based learning auf die vermittlung von informationskompetenzen auswirken kann zusätzlich wird die verbreitung und umsetzung digitaler lernspiele zum aneignen von fähigkeiten im bereich der informationskompetenzen festgestellt dazu wurden sechs verschiedene wissenschaftliche literaturdatenbanken nach studien durchsucht die sich mit der beziehung zwischen game based learning und informationskompetenz beschäftigen die dafür genutzten datenbanken sind acm digital library ieee xplore digital library google scholar scopus sciencedirect sowie the collection of computer science bibliographies diese datenbanken werden nach begriffen in drei verschiedenen begriffskombinationen systematisch analysiert und nach verschiedenen kriterien gefiltert die studien werden hierbei mithilfe des prisma statements von moher et al 2010 selektiert das ziel dieser arbeit ist somit die durchführung einer systematischen literaturanalyse zur feststellung der verbreitung und umsetzung von game based learning anwendungen zum lernen von informationskompetenz des weiteren wird die frage beantwortet welche auswirkungen die vermittlung von informationskompetenzen durch digitale lernspiele auf die lernleistung der spieler besitzen
